

NUTANIX IN 30 SECONDS

What Does Nutanix Do?

Nutanix delivers an Enterprise Cloud Platform that brings public cloud-like simplicity to enterprise datacentres, enabling IT to focus on the applications and services that power their businesses.

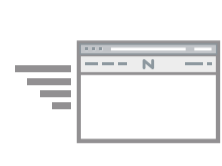

Full-Stack
Infrastructure and
Platform Services

One-Click Operations
for Cloud-Like
Automation

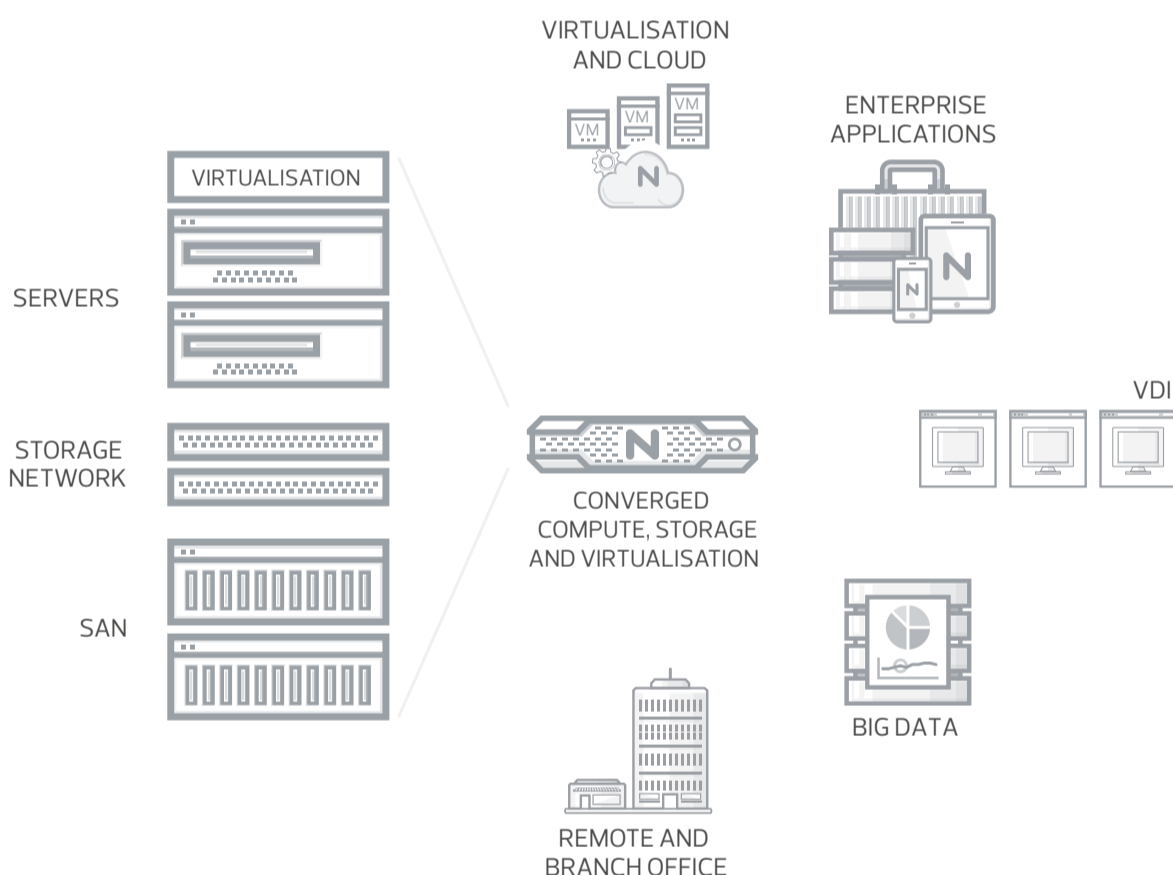

Pay-As-You-Grow

Lower TCO

Application Mobility
that Eliminates
Technology Lock-In

What Does the Nutanix Enterprise Cloud Platform Include?

Nutanix combines compute, storage and virtualisation in a hyperconverged platform leveraging industry-leading servers from Nutanix, HPE, Dell, Lenovo, Cisco and more. The Enterprise Cloud Platform supports all enterprise applications at any scale, including virtualised applications, bare-metal services and container-based applications.

What Makes Nutanix Better?

Nutanix melds web-scale engineering from large Internet and cloud companies, such as Google and Amazon, with intuitive consumer-grade design delivering a turnkey infrastructure solution that is predictable to scale, easy to deploy and simple to manage – delivering a significantly lower TCO.

Why Nutanix and CDW?

In addition to being a Nutanix Cloud Champion Partner, CDW delivers the highest level of technical support and product knowledge. At CDW, we have the expertise to assess, design and implement a solution that includes the advanced feature sets within the Nutanix portfolio. We also offer Dell EMC, HPE and Lenovo datacentre partnerships.
