

# CDW SERVICEWORKS

## Activate cloud services

When moving your apps and data to the cloud, choose a platform that you can design around your business—with a partner who understands your needs. CDW ServiceWorks is underpinned by an established managed platform and powered by three world-class data centres.

### Simplicity defined

ServiceWorks is CDW's cloud services Platform. We will help you go from where you are today to the cloud, in the least possible steps—providing unrivalled flexibility to choose how much of your IT you are ready to move and enabling you to take advantage of the economies cloud has to offer.

It's a great stepping-stone on your IT transformation journey to public cloud, allowing infrastructure to be moved to a cloud based, flexible commercial model while workloads are modernised and transformed to take full advantage of public cloud.

Instead of hiring more IT specialists and upgrading outdated equipment, speak to CDW about outsourcing services that put a strain on your infrastructure.

Even if you have already started with a cloud provider, we will work with you to find the best options for your business. We can also build a hybrid environment that meets all your requirements.

### Gain the competitive edge with CDW ServiceWorks

- CDW understands the market and growth challenges organisations face
- We provide state-of-the-art infrastructure and invest heavily in building and maintaining our platform with best-of-breed technology

- Our partner community—a network of international, industry-leading hardware and software vendors—provide best-in-class solutions
- Services can be brought online in minutes, allowing you scale up and down with absolute flexibility
- Our DCs are configured for the highest levels of resilience—up to 99.99% uptime is guaranteed
- We ensure the highest levels of physical and logical security
- With our simple billing and relevant contract durations you only pay for what you use
- We are technology/brand independent—only the best is used in our platform

### How we partner with you

CDW manages the process from start to end. We are supported by a first-class team of UK-based experts to provide a highly personalised strategy for migration and configuration. By adopting managed services with CDW ServiceWorks, you minimise risk and improve productivity by releasing your IT staff from mundane tasks.

Partner with CDW and you can count on our skills and expertise to help you as you scale and grow, combining some of the best technology, industry knowledge and partnerships in the world to help you solve complex IT challenges.

## DISCOVER YOUR ENVIRONMENT

Our cloud consultants look at what you have today, to propose how this can be improved by adopting the CDW ServiceWorks platform.

## BUILD YOUR PLATFORM

We quickly ingest your data, stand up your services and commence test and evaluation.

Services can be live in minutes, with full IT environments migrated in just a few weeks, providing the perfect foundation to begin transforming the way IT supports your organisation.

## TRANSFORM YOUR ENVIRONMENT

We consult with you to help you begin to innovate on your new cloud platform.

With ServiceWorks you can rest assured that your systems are always up to date, compliant and that you will have no downtime.

## CDW brings together the services and technologies that solve your business problems.

### RISK MANAGEMENT:

Manage risk through CDW's dedicated teams. Leverage our expertise in tax, compliance, international logistics and local business laws and regulations.

### REDUCE COST AND COMPLEXITY:

Through our global partner alliances, scale and expertise, CDW brings simplicity and cost reduction to your supply chain management.

### LOCAL KNOWLEDGE:

CDW has built a network of international hubs, able to service clients around the globe and abide with local business procurement, billing, laws and regulations.

### LOGISTICS EXPERTISE:

With expertise in trade compliance, logistics and tax, CDW has created a mature international supply chain to assist customers in the deployment of technology internationally.

### SERVICE-DRIVEN SOLUTIONS:

CDW delivers consistent levels of service, including the hardware, software and service solutions similar to your home region, so you can efficiently and effectively manage IT from remote locations.
